

Suncatcher Wind Chimes!

These beautiful wind chimes will allow you to observe nature in a fun and creative way!

Length: 30 Minutes

Difficulty: Medium

Supplies You Will Need

- Contact Paper
- Mason Jars
- String
- Flowers/leaves/greenery
- Large Stick
- Scissors
- Hot glue gun
- Sharpie

ACTIVITY INSTRUCTIONS

(Parental Warning: Scissor and hot glue)

1. Gather flowers, leaves, and other greenery
2. Lay your contact paper on a flat surface with the non-stick side up (do not remove peel off sticker on sticky side yet)
3. Use mason jar band to measure and mark 4 to 5 circles on contact paper
4. Turn contact paper over with sticky side facing up and remove peel off
5. Remove stems from flowers and pull off petals if desired
6. Arrange flowers and greenery inside the various circles
7. After all the circles are filled to your liking, take another sheet of contact paper
8. Remove peel off sticker and apply the sticky end down on the flowers (stick sides are touching on both pieces of contact paper)
9. Be slow and cautious as to not disrupt the greenery you have already put down
10. Press down hard on all the circles so they are as flat as possible, and the greenery is stuck inside
11. Use your scissors to cut out the circles, leave a bit of room around the circle so it is easier to glue down
12. Arrange your mason jar bands so the indented side is up
13. Tie your strings through the mason jar bands so they can hang
14. Glue your contact paper circles to the inside of the mason jar bands
15. Put the large stick through the loops you made with the string through the mason jar bands
