

Why do cats eyes glow?

This activity will give you an opportunity to observe and learn about how amazingly unique cats eyes are!

Length: 15 minutes

Difficulty: Easy

Supplies You Will Need

- Empty metal can
- A flashlight
- Rubber band
- 4x4 piece of black plastic (for example a black trash bag)
- Scissors

(Parental Warning: scissor use)

ACTIVITY INSTRUCTIONS

1. Cut an oval into the middle of your piece of plastic.
2. Use the rubber band to secure the plastic around the can.
3. Find a dark space.
4. Place the can around your chest and have a partner shine a light on the can.
5. Take turns and observe the reflection!
